TITLE: Well No. 22 Pump Station, Project 00-30 –
Accept Construction

RECOMMENDATION

Accept Well No. 22 Pump Station, Project 00-30, and authorize the final contract payment.

FISCAL IMPACT

The new Well No. 22 Pump Station, Project 00-30, is funded as part of the 2001-02 Capital Improvement Program from the Water Revenue Fund in the amount of \$1,838,000. The final construction cost of \$740,285 is within the construction budget of \$798,317 for this phase.

BACKGROUND AND ANALYSIS

On October 14, 2003, the City Council awarded the construction contract to Blocka Construction, Inc. of Fremont, California, at the low bid amount of \$798,317 which included an \$80,000 construction contingency. The project completed the second construction phase of Well No. 22. The first phase constructed the water well. This second phase included constructing a new pump station building, installing a pump for the well, piping and instrumentation controls. Well No. 22 has the capacity to provide 900 gallons of water per minute during emergencies.

The new Well No. 22 has been inspected and approved for operation by the California Department of Health Services. All work has been completed in accordance with the plans and specifications.
